How It Works

Overview

We keep our pricing simple by separating the cost of your vehicle and the cost of your buildout. This way, you have more flexibility in the vehicle available to you (2WD vs AWD), while each floor plan's conversion cost remains tied to the specific scope of work for your build.

Process & Payments

- 1. Build Agreement, Build Spot Deposit, and Vehicle Deposit:** Once you've decided to move forward with your conversion, we'll send onboarding paperwork. A \$2,500 build spot deposit officially reserves your place in our production schedule, and a separate \$2,500 deposit reserves your vehicle (if you already have a vehicle and/or are not buying a van through us, this second deposit does not apply).
- 2. Progress Payment:** After the purchase of your van, the next payment is a materials deposit, equal to 50% of your conversion price. This payment is due before your conversion begins, usually around 30-60 days before your scheduled start date, and is applied towards the procurement of materials and components required to build your van.
- 3. Final Payment and Completion:** The remaining 50% payment is due on completion.

Mobile Office Van

Conversion Price

\$75,000

Foundation

Mobile Office Van

Interior Materials

Whether you plan to use your van for work or play, we've designed each of our conversions to be the best blank canvas possible—so you can make the finished van exactly what you want (or need) while you're on the road.

Materials are chosen for their quality, durability, and design. Sticking to a neutral color palette makes it easy for you to customize your van later on, while also keeping costs low and production times as fast as possible.

For these reasons, we do not offer any modifications to our interior materials or colors for our conversions.

Cabinets

Whiteboard material

Counter Top

Steel counter top

Slat Ceiling

Natural wooden slat ceiling

Bench Cushions

Durable charcoal fabric

Upholstered Walls

Upholstered fabric walls in a natural tweed color

Vinyl Flooring

Durable wood grain vinyl flooring

Warranty Information

Mercedes-Benz Warranty

Mercedes-Benz Sprinter vans include a factory warranty, which covers all things vehicle-related, including but not limited to warning lights, error codes, and other factory vehicle-related issues. Loft Vans is not a certified Mercedes mechanic and does not attempt to repair, provide maintenance or service for your van. Any issues with your vehicle should be addressed by a certified Mercedes mechanic.

Loft Vans Warranty

Loft Vans provides a 1-year warranty for its workmanship. Equipment installed as part of your conversion is covered by the manufacturer's warranties and terms vary.

Loft Vans' workmanship warranty document is provided to all customers inside onboarding paperwork.

Contact Us

We'd love to connect and learn more about how a Loft Vans conversion can fit your needs for work or play.

To get started, please reach out via email at sales@loftvans.com, or go to loftvans.com/sales schedule a time for us to give you a call.
